

142 SERIES 20 MIL PREMIUM GRADE PIPEWRAP TAPE

DESCRIPTION

142 Series is a high strength black polyvinyl chloride tape with pressure sensitive adhesive. It is specifically designed to protect external pipe surfaces from corrosion. It is ideally suited for valves, elbows and fittings, both in plant and outdoors. This versatile product can be easily applied by hand or machine under varying weather conditions. 142 Series is recommended where greater physical strength characteristics are required.

FEATURES

Provides outstanding protection against sunlight, weather, acids, alkalis, corrosive salts and fumes, saltwater, aging and animal and plant acids.

PHYSICAL PROPERTIES

Temperature Rating - Max	80°C (176°F)
Temperature Range	-20°F to 176°F
Minimum Application Temperature	40°F
Thickness	20 mil
Color	Black
Adhesion to Steel	20 oz/in
Tensile Strength	44 lbs/in
Elongation	150%

The physical and performance characteristics shown are averages obtained from tests recommended by ASTM, government agencies or our own procedures. A particular roll may vary slightly from these averages and it is recommended that the purchaser determine the suitability for his own purpose.
