

143 SERIES LAMINATED SAFETY STRIPED PVC HAZARD MARKING TAPE

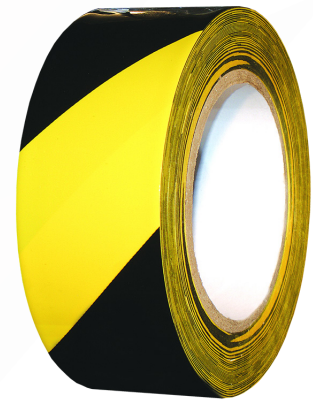

DESCRIPTION

Safety color code for striping and marking of hazardous areas, marking factory lanes, aisle marking, and exits. Before applying make sure surface is clear, dry and free from grease. Remove any flaking paint etc.

FEATURES & BENEFITS

A heavy-duty conformable, soft PVC vinyl, available in assorted colors. Complies with OSHA color marking requirements, high conformability, resists abrasion, weather and chemical resistant. Its high tack rubber adhesive tightly anchors to most surfaces.

Clear laminate provides excellent durability.

PHYSICAL PROPERTIES

Adhesive	Natural Rubber Resin
Backing Material	Laminated Vinyl Film
Total Thickness	8 mil
Tensile Strength (PSTC-31)	33 lbs/in
Elongation (PSTC-31)	200%
Adhesion to Steel	22 oz/in

The physical and performance characteristics shown are averages obtained from tests recommended by ASTM, government agencies or our own procedures. A particular roll may vary slightly from these averages and it is recommended that the purchaser determine the suitability for his own purpose.
