- Trade Boat Shows
- Building Renovation
- Entrance/Exit Areas
- Restaurants
- Painting Projects
- Recreational Vehicles
- New Carpet Installation
- Boats
- Model Homes
- Office Parties
- Kennel Clubs
- Stairs
- Remodeling

FEATURES

Carpet Protection Film is a temporary, yet extremely effective way to protect synthetic carpets from tracked in dirt, paint spills, dust, construction debris, and damage. The film acts as a barrier of protection for your carpet for up to 45 days. Removal is as simple as lifting the film from the floor and discarding with no damage or residue left behind.

Our 3mil carpet protection is a tough Polyethylene film made with environmentally friendly, water based acrylic adhesive applied to one side. The film is highly resistant to tearing and puncturing from sharp items such as tools or high heel shoes. The adhesive and the skid-resistant surface allows the film to stay in place and eliminates creases and tripping hazards typical with standard plastic tarps and drop cloths.

PRODUCT DESCRIPTION

High performance film consisting of a blend of PE resins designed for the protective film industry. The film exhibits high clarity, superior resistance to punctures, and additional properties for unsurpassed performance in a variety of applications.

PHYSICAL PROPERTIES

Hazardous Components	None
Explosion Limits	None
Melting Temp	>190°F
Ignition Temp	370°F
PH	Neutral
Adhesive	Environmentally friendly water based acrylic, chemically stable & inert
Dart Impact	275 grams
Handling	No restrictions for handling or shipment
Manufactured	In the USA

The physical and performance characteristics shown are averages obtained from tests recommended by ASTM, government agencies or our own procedures. A particular roll may vary slightly from these averages and it is recommended that the purchaser determine the suitability for his own purpose.
